## ES

SV-X110 es un sistema de puerta corredera para paneles de vidrio sin marco que combina las últimas novedades tecnológicas con un atractivo diseño minimalista. El sistema se instala fácil y rápidamente, y es especialmente apropiado para aplicaciones domésticas y comerciales, en las que se integra a la perfección en cualquier diseño.

Este producto permite elegir entre dos sistemas de frenado: Freno retenedor y freno amortiguador SofTop de doble acción (apertura y cierre) que proporciona un cierre y apertura suaves y sin impactos, que alarga la vida del producto y ofrece seguridad.

## EN

SV-X110 is a compact sliding solution for frameless glass panels, combining latest technology with an attractive minimalist design. The system is quick and easy to install, and is particularly appropriate for domestic and commercial applications, where it integrates seamlessly into any design.

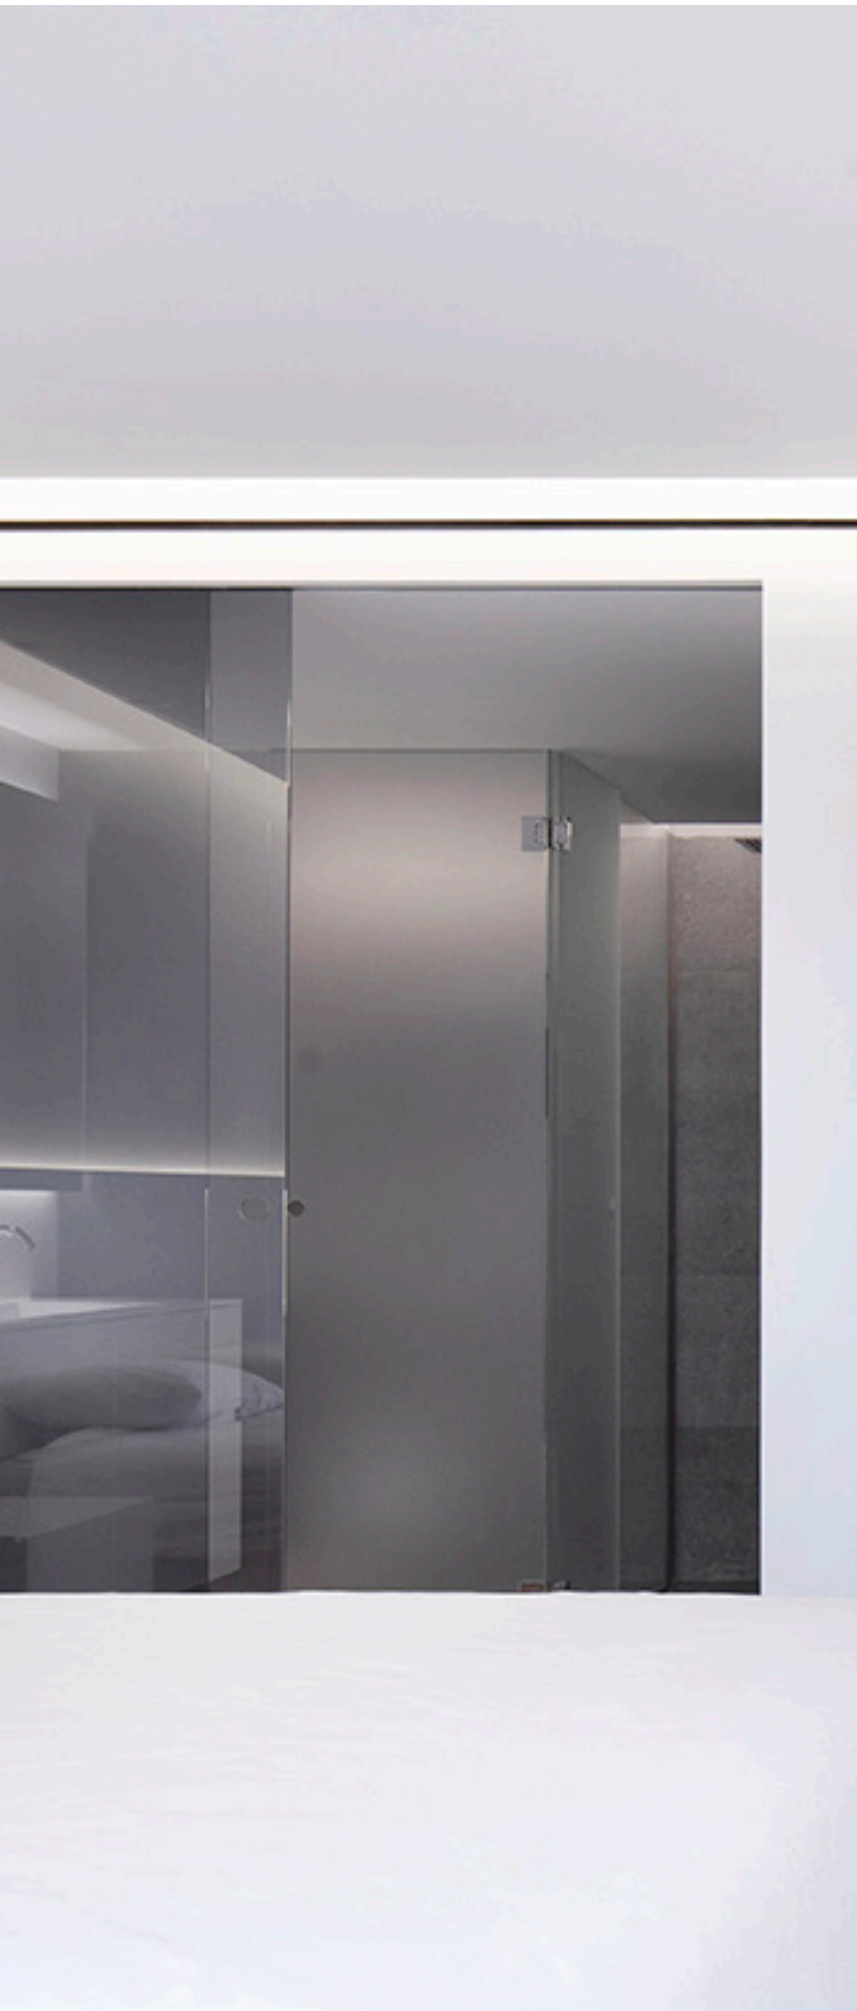

This product allows you to choose between two braking systems: the retainer brake and the SofTop double-action damping brake (opening and closing). It provides smooth and impact-free closing and opening, extending the product's lifespan and ensuring safety.

## FR

SV-X110 est un système de porte coulissante pour panneaux en verre sans cadre qui combine les dernières technologies avec un design minimaliste attrayant. Le système s'installe facile et rapidement et est particulièrement adapté pour les applications domestiques et commerciales, qui s'intègre de façon transparente dans toute conception.

Ce produit vous permet de choisir entre deux systèmes de freinage: le frein à retenue et le frein d'amortissement SofTop à double action (ouverture et fermeture). Il assure une fermeture et une ouverture douces et sans impact, prolongeant ainsi la durée de vie du produit et garantissant la sécurité.
